

Science Fair Topic/Question

Due Date: Wednesday, October, 3

Description: On the back of the September 26th notebook entry you will complete your science fair topic/question.

As you begin thinking about how you want to invest your time, consider these talking points:

- Do you know the answer to the question before experimentation? *If you have done this before – Why are you doing it again?*
- How much time are you willing to invest in this topic? *Are you really interested in solving this problem?*
- Is this an experimental question, and is it measurable? *All projects must follow the model for experimentation (Observation/Question, Hypothesis, Experimentation/Data Collection, Graphing and Conclusion)*

Q. If you're happy and you know it, wash your hands! Are people with better hygiene happier?
